

BALMAIN

RESIDENTIAL

PRIME & PAINT YOUR GATE

It is highly recommended that you prime and paint your new Balmain Federation Gate. Simply follow the instructions below for a great protective finish.

- 1 Clean gate with a damp cloth, ensure all excess weld dust is removed
- 2 Paint with a heavy duty primer suitable for pre galvanised steel
- 3 Finish with a suitable top coat of preferred colour

Note: There are various paints and options available using either water or oil bases. Please follow the direction of the primer and paint manufacturer chosen, to ensure correct application and suitability for use on this product. If unsure please consult your hardware store paint professional for assistance.
